Note 1 - Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The accompanying financial statements of Arch Mortgage Guaranty Company (the "Company") are presented on the basis of accounting practices prescribed or permitted by the Wisconsin Office of the Commissioner of Insurance (the "Department").

The Department recognizes only statutory accounting practices prescribed or permitted by the State of Wisconsin (the "State") for determining and reporting the financial condition and results of operations of an insurance company and for determining its solvency under Wisconsin insurance laws. The National Association of Insurance Commissioners' ("NAIC") Accounting Practices and Procedures manual ("NAIC SAP") has been adopted as a component of prescribed or permitted practices by the State.

The State has adopted certain prescribed accounting practices that differ from those found in NAIC SAP. Specifically, changes in contingency reserves for the year are reported in the annual statement as a reduction of or addition to underwriting income. Under Statement of Statutory Accounting Principles ("SSAP") No. 58, Mortgage Guaranty Insurance ("SSAP No. 58"), changes in contingency reserves are reported directly to unassigned funds (surplus) and not included in income. This modification adopted by the State does not affect the Company's statutory surplus. Reconcilations of net income and policyholder's surplus between the amounts reported in the accompanying financial statements (Wisconsin Basis) and NAIC SAP follow:

C. Accounting Policy

Basis for Bonds, Mandatory Convertible Securities, SVO-Identified Investments and Amortization Method
Bonds, Ioan backed and structured securities ("LBaSS") with an NAIC designation (as obtained from the NAIC Investment Analysis Office ("IAO")) of
"1" or "2" (considered to be investment grade) are carried at amortized cost. Bonds and LBaSS with an NAIC designation of "3", "4", "5", "5GI", "6" or
"6*" (considered to be non-investment grade) are carried at the lower of amortized cost or fair value. LBaSS fair values are determined using
independent pricing services and broker quotes. Bond and LBaSS securities are assigned a 5* designation when the following conditions are met: a)
the documentation required for a full credit analysis did not exist, b) the issuer/obligor has made all contracted interest and principal payments, and c)
an expectation of repayment of interest and principal exists. Bonds and LBaSS that have not been filed and have not received a designation in over a
year, from the NAIC IAO, are assigned a 6* designation and carried at zero, with unrealized losses charged to surplus. Bond and LBaSS securities that
have been filed and received a 6* designation can carry a value greater than zero. Amortization of premium or discount on bonds and LBaSS is
calculated using the effective yield method.

Additionally, mortgage-backed securities and asset backed securities prepayment assumptions were obtained from an outside vendor or internal estimates. The retrospective adjustment method is used to account for the effect of unscheduled payments affecting high credit quality securities, while securities with less than high credit quality and securities for which the collection of all contractual cash flows is not probable are both accounted for using the prospective adjustment method.

(6) Basis for Loan-Backed Securities and Adjustment Methodology Refer to Note 1.C (2) above.

- (2) Fair Value Measurements in (Level 3) of the Fair Value Hierarchy At March 31, 2020, the Company has no assets or liabilities measured at fair value in this category.
- (3) Policies when Transfers Between Levels are Recognized

At the end of each reporting period, the Company evaluates whether or not any event has occured or circumstances have changed that would cause an instrument to be transferred into or out of Level 3. There were no transfers into or out of Level 3 for the quarter ended March 31, 2020.

(4) Description of Valuation Techniques and Inputs Used in Fair Value Measurement In accordance with SSAP 100R, the valuation techniques used in measuring fair values are based on the following:

Level 1: Fair value measurements that are quoted prices (unadjusted) in active markets that the Company has the ability to access for identical assets or liabilities.

Level 2: Fair value measurements, based on inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable at commonly quoted intervals.

Level 3: Fair value measurements based on valuation techniques that use significant inputs that are unobservable. These measurements include circumstances in which there is little, if any, market activity for the asset or liability.

Note 21 - Other Items

Unusual or Infrequent Items

In the first quarter of 2020, the COVID-19 pandemic and its economic fallout has warranted additional consideration and evaluation. There has been a sudden decline in economic activity in a number of industries along with a decline in stock prices, rising unemployment and overall market disruption. In response, government stimulus measures have been adopted and are in the process of being operationalized. With this in mind however, the current and future impact to the mortgage industry, and as a byproduct the mortgage guaranty sector, is expected to have a negative financial impact, the totality of

which is unknown at this time.

More specifically, unpaid losses and loss adjustment expenses are recognized based on a notice of default (or 2nd missed payment), which gives rise to a claim and is considered the loss incurred date. Although the Company did not experience a significant increase in default activity during the first quarter of 2020 relative to the prior year, elevated delinquencies are anticipated as borrowers fail to make timely payments on their mortgages as a result of entering into mortgage forbearance programs offered by the GSEs, which allow borrowers to defer mortgage payments. As a result, elevated incurred losses are anticipated in subsequent periods as the economic effects associated with this pandemic continue to mature. The extent to which COVID-19 impacts the Company's results of operations, financial condition and/or liquidity will depend on numerous evolving factors, primary of which is the relief options the GSE's make available to borrowers. Given the daily evolution of the COVID-19 outbreak and the response to curb its spread, currently the Company is not able to estimate the effects of the COVID-19 outbreak on its results of operations, financial condition and/or liquidity.

Note 22 - Events Subsequent

Subsequent events have been considered through May 14, 2020 for these statutory financial statements which are to be issued on May 14, 2020. There were no events occurring subsequent to the end of the quarter that merited recognition or disclosure in these statements.

Note 25 – Change in Incurred Losses and Loss Adjustment Expenses

Change in Incurred Losses and Loss Adjustment Expenses

Incurred loss and loss adjustment expenses attributable to insured events of prior years decreased by \$11 thousand and by \$55 thousand for the months ending March 31, 2020 and 2019, respectively, as a result of re-estimation of unpaid losses and loss adjustment expenses. The change is generally the result of ongoing analysis of recent loss development trends. Original estimates are increased or decreased as additional information becomes known regarding individual claims.
