NOTES TO FINANCIAL STATEMENTS

Note 1 – Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The accompanying financial statements of United Guaranty Residential Insurance Company (the "Company") are presented on the basis of accounting practices prescribed or permitted by the North Carolina Department of Insurance (the "Department").

The Department recognizes only statutory accounting practices prescribed or permitted by the state of North Carolina (the "State") for determining and reporting the financial condition and results of operations of an insurance company and for determining its solvency under the North Carolina insurance law. The National Association of Insurance Commissioners' (NAIC) Accounting Practices and Procedures manual (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the State.

There are no changes in surplus in the accompanying financial statements due to differences between the state of North Carolina prescribed accounting practices and those of the NAIC. Reconciliations of net income and policyholder's surplus between the amounts reported in the accompanying financial statements (NC Basis) and NAIC SAP follow:

C. Accounting Policy

(2) Basis for Bonds, Mandatory Convertible Securities, SVO-Identified Investments and Amortization Method

Bonds, loan backed and structured securities ("LBaSS") with an NAIC designation (as obtained from the NAIC Investment Analysis Office ("IAO")) of "1" or "2" (considered to be investment grade) are carried at amortized cost. Bonds and LBaSS with an NAIC designation of "3", "4", "5", "5GI", "6" or "6*" (considered to be non-investment grade) are carried at the lower of amortized cost or fair value. LBaSS fair values are determined using independent pricing services and broker quotes. Bond and LBaSS securities are assigned a 5* designation when the following conditions are met: a) the documentation required for a full credit analysis did not exist, b) the issuer/obligor has made all contracted interest and principal payments, and c) an expectation of repayment of interest and principal exists. Bonds and LBaSS that have not been filed and have not received a designation in over a year, from the NAIC IAO, are assigned a 6* designation and carried at zero, with unrealized losses charged to surplus. Bond and LBaSS securities that have been filed and received a 6* designation can carry a value greater than zero. Amortization of premium or discount on bonds and LBaSS is calculated using the effective yield method.

Additionally, mortgage-backed securities and asset backed securities prepayment assumptions were obtained from an outside vendor or internal estimates. The retrospective adjustment method is used to account for the effect of unscheduled payments affecting high credit quality securities, while securities with less than high credit quality and securities for which the collection of all contractual cash flows is not probable are both accounted for using the prospective adjustment method.

(6) Basis for Loan-Backed Securities and Adjustment Methodology

Refer to Note 1.C (2) above.

(2) Securities with Recognized Other-Than-Temporary Impairment

Not Applicable

(3) Recognized OTTI securities

Not Applicable

NOTES TO FINANCIAL STATEMENTS

- (4) All impaired securities (fair value is less than cost or amortized cost) for which an other-than-temporary impairment has not been recognized in earnings as a realized loss (including securities with a recognized other-than-temporary impairment for non-interest related declines when a non-recognized interest related impairment remains):

a. The aggregate amount of unrealized losses:	1. Less than 12 Months	\$ 19,326,699
	2. 12 Months or Longer	\$ 256,805
b. The aggregate related fair value of securities with unrealized losses:	1. Less than 12 Months	\$ 204,477,149
	2. 12 Months or Longer	\$ 1,989,848

- (5) Information Investor Considered in Reaching Conclusion that Impairments are Not Other-Than-Temporary
In accordance with SSAP No. 43R, Loan-backed and Structured Securities – Revised, the Company’s loan-backed securities are stated at amortized cost. When evaluating whether a decline in value is other-than-temporary, the Company considers several factors, including, but not limited to, the following: The extent and the duration of the decline in value; The reasons for the decline in value (credit event, interest related or market fluctuations); The financial position and access to capital of the issuer, including the current and future impact of any specific events; Our intent to sell the securities, or whether it is more likely than not that we will be required to sell it before recovery; and the financial condition and near term prospects of the issuer. Impairment due to deterioration in credit that results in a conclusion that the present value of cash flows expected to be collected will not be sufficient to recover the amortized cost basis of the securities is considered other-than-temporary. Other declines in fair value (for example, due to interest rate changes, sector credit rating changes or company-specific rating changes) that result in a conclusion that the present value of cash flows expected to be collected will not be sufficient to recover the amortized cost basis of the security may also result in a conclusion that an OTTI has occurred. To the extent that the Company determines that a security is other-than-temporarily impaired, an impairment loss is recognized in the Statement of Income.

Note 21 – Other Items

A. Unusual or Infrequent Items
In the first quarter of 2020, the COVID-19 pandemic and its economic fallout has warranted additional consideration and evaluation. There has been a sudden decline in economic activity in a number of industries along with a decline in stock prices, rising unemployment and overall market disruption. In response, government stimulus measures have been adopted and are in the process of being operationalized. With this in mind however, the current and future impact to the mortgage industry, and as a byproduct the mortgage guaranty sector, is expected to have a negative financial impact, the totality of which is unknown at this time.

More specifically, unpaid losses and loss adjustment expenses are recognized based on a notice of default (or 2nd missed payment), which gives rise to a claim and is considered the loss incurred date. Although the Company did not experience a significant increase in default activity during the first quarter of 2020 relative to the prior year, elevated delinquencies are anticipated as borrowers fail to make timely payments on their mortgages as a result of entering into mortgage forbearance programs offered by the GSEs, which allow borrowers to defer mortgage payments. As a result, elevated incurred losses are anticipated in subsequent periods as the economic effects associated with this pandemic continue to mature. The extent to which COVID-19 impacts the Company's results of operations, financial condition and/or liquidity will depend on numerous evolving factors, primary of which is the relief options the GSE's make available to borrowers. Given the daily evolution of the COVID-19 outbreak and the response to curb its spread, currently the Company is not able to estimate the effects of the COVID-19 outbreak on its results of operations, financial condition and/or liquidity.

Note 22 – Events Subsequent

Subsequent events have been considered through May 14, 2020 for these statutory financial statements which are to be issued on May 14, 2020. There were no events occurring subsequent to the end of the quarter that merited recognition or disclosure in these statements.

Incurred loss and loss adjustment expenses attributable to insured events of prior years increased by \$2.4 million and decreased by \$13.3 million for the three months ended March 31, 2020 and 2019, respectively, as a result of re-estimation of unpaid losses and loss adjustment expenses. The change is generally the result of ongoing analysis of recent loss development trends.
