

## Arch Global Mortgage Expands Arch Mortgage Funding, Inc. to Include Products for NQM Market

April 18, 2022 | 2022-01

Arch Global Mortgage Group has expanded Arch Mortgage Funding, Inc. (AMF) to include products for the Non-Qualified Mortgage (NQM) market to support lenders seeking to partner for NQM loan sales.

By purchasing Jumbo and now NQM closed loans, AMF brings the non-Agency market an alternative, stable liquidity source.

“We are excited to offer this expansion of our AMF conduit to meet the secondary market need for liquidity,” said Jim Bennison, Chief Executive Officer, Arch Mortgage Funding. “AMF products provide coverage for a wide range of alternatives, including loan amounts from \$150,000 to \$3 million, under prime, express and expanded underwriting guidelines.”

Also within AMF’s expanded underwriting program are alternative income-qualifying tools, including Bank Statement, Asset Depletion and Debt Service Coverage Ratio.

As a division of [Arch Global Mortgage Group](#), AMF draws upon unparalleled global mortgage expertise in underwriting, compliance, credit risk analysis, pricing, reinsurance and securitization to provide solutions for lenders’ specific risk management needs.
